

Precision Alloy Services | Bowling Green, Ohio

Warehouse Associate

Precision Alloy Services is seeking a **Warehouse Associate** to support our manufacturing and warehouse operations. This position is responsible for material handling, equipment setup, general production support, and assisting with maintenance and daily operational needs.

Key Responsibilities

- Efficiently and accurately fulfill orders, receive inventory, load/unload trucks, and assist with general housekeeping.
- Safely handle, move, and stage materials throughout the facility.
- Support the setup and operation of manufacturing equipment and processes.
- Read and interpret engineering drawings, blueprints, and basic measurements.
- Utilize hand tools, power tools, saws, drills, and other equipment as required.
- Assist with troubleshooting equipment issues and support maintenance activities.
- Perform basic mathematical calculations involving fractions and decimals.
- Follow all company safety procedures, quality requirements, and QMS standards.
- Maintain an organized and safe work environment.
- Assist other team members and departments as needed to support business operations.

Qualifications & Skills

- 2+ years of manufacturing experience preferred.
- Mechanical and electrical experience preferred.
- Basic computer skills required; CAD experience is a plus.
- Strong mechanical aptitude and problem-solving skills.
- Safety-conscious with excellent attention to detail.
- Ability to follow instructions, prioritize tasks, and work independently.
- Forklift and overhead crane experience is preferred but not required; training can be provided.
- Willingness to learn new equipment (waterjet, band saw, centerless grinder, etc.), processes, and procedures.

Physical & Work Environment Requirements

- Ability to occasionally lift and move materials weighing up to 75 lbs.
- Ability to stand, kneel, bend, and work on your feet for extended periods.
- Willingness to work scheduled overtime or staggered shifts as business needs require.
